## PROFESSIONAL EXPERIENCE

### Exodus Cloud Technology Solutions Ltd: September 2010 – Present

Exodus Cloud Technology is my freelancing business where I help small, medium and large enterprises achieve their software solution goals. My passion is simplifying the delivery process, building useful software solutions, helping others grow through mentorship and providing tutorials, and getting everyone talking together.

In 2025, I have concentrated on learning more about Large Language Models, AI in general, Angular 19 advances, building new Angular components, launching Lotus-Catheter.com and managing a complete house and garden modernisation project.
